Leave no Trace: The Cub Scouts and Boy Scouts follow an outdoor code known as "Leave No Trace" This means we leave no trace that we've been camping. Please make sure you scouts and family members are controlling their trash. The usual issues happen are S'more supplies and biodegradable items. Marshmallows or Apple cores, seeds & shells, etc. may degrade naturally, but they also attract undesired animals and bugs into camp. Please dispose of them properly. We will have a check out inspection from the camp ranger before we leave on Saturday. Please help us pass that right away.
